IT’S NOT A TRACTOR, IT’S A STEINER
Steiner tractors are known for their uncompromising performance and versatility. With a wide range of attachments, owning a Steiner gives you unlimited four-season capabilities to take on the toughest jobs. Whether you’re maintaining a farm, commercial or residential property, municipal grounds, schools, universities or golf courses, Steiner tractors deliver regardless of conditions and terrain.

While the 440 and 235 tractors are proven performers, Steiner introduces the new 450 tractor in 2017. The new Steiner 450 tractor is the most refined, powerful and versatile machine of its kind, ever. Hydraulically controlled weight transfer and traction boost allows you to easily and quickly adjust its balance for unprecedented stability on slopes, even with heavy attachments. Plus, with dual hydraulic pumps, you don’t have to worry about losing power while attachments are in motion. Unique with unmatched performance, the new Steiner 450 tractor performs where other tractors can’t.

Steiner 440 tractors continue to get the job done with excellent stability, maneuverability and traction. With over two-dozen available attachments, an oscillating and articulating frame, and ground-gripping four-wheel drive, the 440 is a workhorse for any task. The Steiner 235 front-wheel-drive tractor also delivers excellent traction, agility and the power you need to get the job done right and fast.

With this kind of power, stability and versatility, Steiner tractors give you the ability to do more with less — whatever, wherever, whenever.
COMMERCIAL / MUNICIPAL / SCHOOLS
Landscape contractors trust Steiner to help stretch their equipment budgets and expand their service offerings. Municipalities working under tight budgets get more done for less with Steiner tractors:

- Hassle-free mowing with side and rear discharge / mulching and rough cut mower decks
- Easily aerate lawns and till gardens and baseball infields
- Quickly clean sidewalks, driveways, and parking lots with sweepers, blowers, snow blowers and snow blades

SNOW
You won’t find Steiner tractors hibernating in winter; they’re working hard to improve your productivity year-round. With Steiner’s full line of snow attachments, you can easily conquer any size storm:

- Blow heavy snow with our powerful snow blowers
- Sweep light snow away with our rotary sweepers
- Push piles aside with our power angle blades
- Carry snow away from parking and paved areas with our slip scoop
- Stay warm with our tractor cab (optional)

FARM / HOME
Owning a Steiner means more value for your money because of all you can accomplish with one machine. You name it and your Steiner tractor can do it:

- Mow tall fields
- Mow lawns
- Till your garden
- Haul debris
- Clean out stalls
- Clean up snow
- Grind stumps
- Blow away leaves / debris

GOLF
Steiner tractors have been at home on golf courses for over 30 years. Trusted for slope mowing, superintendents use Steiner tractors to mow roughs and green and tee surrounds. Steiner is also the go-to tractor for:

- Trenching
- Sweeping cart paths
- Aerating
- Stump grinding
- Snow removal
- Blowing off aeration cores
- Moving dirt and sand
- Moving debris
- Mowing roughs and surrounds
Calling the new Steiner® 450 a tractor is kind of like saying Mt. Everest is just a big hill. And speaking of hills, you’ll feel like the king of them all with the 450’s exceptional stability, hydraulic weight transfer, traction boost and dual hydraulic pumps. Throw in the industry-leading sight lines, handling and power, and you’ve got yourself a lot more than a tractor — you’ve got a Steiner.

**450 TRACTOR**

450 MODEL NUMBERS:
75-75025 | 75-75032 | 75-75037

* Please reference the Product or Owner’s Manual for Use Specifications. Slope ratings vary, based on tire and cab configurations.
**Legendary Climbing and Maneuverability**

The 450’s articulating frame provides a tight turning radius of 43.5 inches for agile maneuverability in tight areas. The frame oscillates to keep you balanced and in control when side-mowing slopes. With a low center of gravity and 4-wheel drive, you get unmatched traction and stability for scaling slopes and berms.

**Exclusive Hydraulic Weight Transfer and Traction Boost System**

The new, integrated hydraulic weight transfer and traction boost system provides additional traction and control when needed. It provides consistent weight transfer through the full range of lift arm travel with no secondary springs to adjust, and it is fully adjustable on demand.

**A Choice of Powerful Engines**

Choose from three reliable engines: a Kubota® 25-horsepower, liquid-cooled diesel; a Kubota® 32-horsepower, liquid-cooled gasoline; or a 37-horsepower Vanguard EFI™ gasoline engine.

**Improved Hydraulics**

A new stacked gear pump design dramatically increases durability and hydraulic performance and efficiency, with increased oil cooler capacity and reduced drive system pressure. Provides 1,750 PSI of steering and lift pressure for more hydraulic power to handle the toughest chores.

**Tough and Powerful Transaxles**

Durable Peerless® 2600 dual-range transaxles are tough and powerful enough to handle the most rigorous tasks and terrain. You get plenty of torque for productive ground speeds up to 9.5 MPH in high gear and 6 MPH in low gear.

**Comfortable Ride, Easy Control**

The 450 features a large operator platform and conveniently located controls for easy operation. Improved hydraulic performance provides smooth, predictable steering and reduced foot-pedal force for easy, hands-free speed control. Ride in comfort with the new adjustable, high-back deluxe seat with armrests.

**Quick-Hitch™ System**

Steiner’s convenient and easy-to-use two-point Quick-Hitch™ System, with 50% stronger lift arms, makes switching attachments virtually effortless. In a few minutes and without tools required, you’re on to the next task.

**Attachment Drives**

An auxiliary hydraulic system with hydraulic quick-couplers helps you finish chores with our optional hydraulic attachments. A front-mounted Warner® 250 Series Commercial MagStop PTO clutch drives belt-driven attachments with power to spare.

**Use Anywhere, Anytime**

Bright, efficient LED headlights and taillights provide plenty of light when needed. A 7-gallon, durable, roto-molded fuel tank keeps you going longer without stopping to refuel.

**More Standard Features**

A folding rollover protective structure; heavy-duty front and rear skid plates; an integral-frame rear weight bar; a heavy-duty rear-mounted 2-inch receiver hitch; and a 12-volt electrical outlet are all standard on the 450.
FOUR SEASONS, ONE TRACTOR.

440 TRACTOR

Built for heavy-duty versatility and reliability, the Steiner® 440 4-wheel drive tractor includes advanced, user-friendly features to help get the job done easily and efficiently.

440 MODEL NUMBERS:
75-72010 | 75-72011 | 75-72012 | 75-72013

* Please reference the Product or Owner’s Manual for Use Specifications. Slope ratings vary, based on tire and cab configurations.
Maximize performance on the toughest jobs with a higher-power engine and hydraulic system, as well as increased strength in the front and rear axles.

A full compliment of snow removal attachments make the powerful 440 tractor hard to beat when clearing winter’s fury from residential or commercial properties.

ARTICULATED STABILITY AND PERFORMANCE
The 440’s articulating and oscillating frame, low center of gravity and 4-wheel drive provide unmatched traction, maneuverability and power. Tackle steep and contoured terrain with easy confidence and security.

POWERFUL ENGINE CHOICES
Choose between four of the industry’s most powerful and reliable engines: a Kohler® 34- or 40-horsepower gasoline, air-cooled; a Kubota® 25-horsepower diesel; and a Kubota® 32-horsepower gasoline, liquid-cooled. The 440 provides more power with a 40-AMP alternator and 525-CCA battery.

SUPERIOR HYDRAULICS
With two pumps, the 440 offers 60% more oil capacity and delivers 1500 PSI of lift pressure, so you have more available hydraulic power for steering and work.

STRONG FRONT AND REAR TRANSAXLES
Newly redesigned transaxles are built to handle even the most rigorous tasks and terrain. Dual-range transaxles deliver 10 MPH in high and 5.25 MPH in low.

EASY TO USE ANYWHERE, ANYTIME
The forward/reverse foot control provides hands-free speed control, 200-watt headlights provide 80% more illumination, and an 8-gallon fuel tank reduces the number of stops for refills. *Optional hand-operated speed control available.

COMFORTABLE RIDE, EASY STEERING
With a large, vertically adjustable operator platform, conveniently located controls, standard radial seat springs, armrests, and more, working hard won’t feel like it. *Optional suspension seat kit control available.

MORE STANDARD FEATURES
A folding rollover protective structure, an integral-frame rear weight bar, and dual-range transaxles are just a few of the features that come standard on the 440.

QUICK-HITCH™ SYSTEM
Steiner’s proven two-point Quick-Hitch™ System makes switching attachments virtually effortless. No tools are required and, in just a few minutes, you can be on to your next task.

AUXILIARY HYDRAULICS
Standard auxiliary hydraulic system helps you handle additional chores with our optional attachments.
CAPABLE, VERSATILE & EASY TO USE

235 TRACTOR

Known for its power and versatility, the Steiner® 235 front-wheel drive tractor delivers a hard-working punch.

235 MODEL NUMBER: 75-70282
With full-float action, Steiner’s optional side- and rear-discharge mowing decks mow smoothly over contours for a quality cut and less scalping. Our standard rear roller leaves your lawn with a fairway-finished look.

Loosen soil down to a 6-inch depth for gardens and lawn seeding with our productive 48-inch wide tiller.

Equipped with the SB454 snow blower, the 235 removes snow quickly and easily. At 64 inches wide, it is stable and has excellent traction for cleaning hilly walkways and paved areas.

Sweep sand, grass clippings, and snow from paved areas with our two available rotary sweepers. Hydraulic controls let you angle the sweepers for efficient left- or right-side operation.

► TRACTION-MAX™ WEIGHT TRANSFER SYSTEM
Weight is transferred hydraulically to the front axle for added traction and stabilization when mowing hillsides. The weight transfer system also provides additional stability when using heavier attachments.

► HYDROSTATIC FRONT-WHEEL DRIVE
A powerful hydrostatic transmission with front-wheel drive and a low center of gravity gives the 235 plenty of grip and stability on slopes and in slippery conditions.

► DIFFERENTIAL LOCK
When needed, link the front drive wheels together with the differential lock for extra traction on slopes and ice-covered pavement.

► COMPACT AGILITY AND EASY SPEED CONTROL
At 56 inches wide and 82 inches long, the 235 has a forward/reverse foot control for easy maneuvering in and out of tight spots. High speed is infinitely variable up to 10 MPH, and low speed is variable up to 5 MPH.

► POWER AND DURABILITY
A powerful, liquid-cooled, 3-cylinder, 24.8 gross horsepower Kubota® diesel engine provides all the power you need to run attachments and handle tough, challenging conditions. A large-capacity Warner® 175 ft lb power take-off clutch stands up to the punishment of everyday use. A rollover protective structure comes standard on the 235.

► OPTIONAL FRONT-MOUNTED ATTACHMENTS
Choose from a variety of available front-mounted attachments for mowing, grounds maintenance, and snow removal. Optional accessories include cabs, sunshades, and more. All are easy to attach and service, and provide good visibility of the task at hand.

► QUICK-HITCH™ SYSTEM
Go from mowing to blowing or from sweeping to plowing snow with Steiner’s standard two-point Quick-Hitch™ System. Let’s you easily switch attachments in minutes, without tools.

► AUXILIARY HYDRAULICS
Standard auxiliary hydraulic system helps you handle additional chores with our optional attachments.
GET MORE DONE WITH
STEINER SITE PREPARATION & TURF MAINTENANCE ATTACHMENTS

There's not much you can't do with a Steiner® tractor and our broad range of site preparation and turf maintenance attachments. Mow lawns, cut tall weeds, till soil, aerate turf, and more.

ROUGH CUT MOWER
Tackles overgrown brush and bramble up to 1 1/2" in diameter. This newly designed mowing deck incorporates the latest in rough-cutting technology to remove thick, woody growth as well as dense grassy weeds. (450, 440)

MODEL 75-71300
- Overall width: 73" (deck 76" with skids)
- Cutting width: 72"
- Cutting height: 3 3/4" to 6"
- Drive shaft to PTO belt
- Spindles: Cast iron, sealed ball bearings
- Blades: 3 blades, 24"
- Discharge: Rear
- Skid shoes: 2 (2 optional caster wheels)
- Weight: 430 lb
- Available options: Caster wheel kit

FLEX DECK FINISH CUT MOWER
Mow uneven turf and undulating terrain without scalping, and give level playing fields a smooth, professional cut with the Steiner flex deck attachment. Great around bunkers, tee boxes and pond banks, near fences and under trees. (450, 440)

MODEL 75-71305
- Overall width: 82" (70" with trim side deck raised) (94" with chute down)
- Overall cutting width: 80"
- Decks: 4 hinged, 20 degrees articulation
- Trim side deck: 20° offset, hydraulic lift
- Cutting height: 1 1/2" to 5"
- Spindles: Cast iron, sealed ball bearings
- Blades: 4 high-lift blades, 21"
- Wheels: 5 front, 2 rear, 9 x 3.5 no flat, semi-pneumatic
- Discharge: Side
- Weight: 680 lb

Deck flips up for easy access to blades and underside.

Deck flips up for easy access to blades and underside.
SIDE-DISCHARGE ROTARY MOWERS
Three-blade, side-discharge rotary mowers feature tapered roller-bearing spindle assemblies. Full-floating decks reduce scalping. Single-lever height adjustment. High-velocity blade speeds and channeled rubber discharge chute provide even clipping distribution. Deck flips up more than 90 degrees for easy access to blades and underside. (450, 440, 235)

**MODEL MD448**
- Overall width with discharge chute: 61”
- Cutting width: 47”
- Cutting height: 1” to 4 1/2”
- Spindle drive: Single "V" belt
- Spindles: Tapered roller assemblies
- Blades: 3 blades, 16 1/4”
- Discharge: Side
- Wheels: 10 x 3.5 semi-pneumatic
- Weight: 330 lb
- Drive shaft to PTO belt

**MODEL MD460**
- Overall width with discharge chute: 74”
- Cutting width: 59 3/8”
- Cutting height: 1” to 4 1/2”
- Spindle drive: Single "V" belt
- Spindles: Tapered roller assemblies
- Blades: 3 blades, 20 1/2”
- Discharge: Side
- Wheels: 10 x 3.5 semi-pneumatic
- Weight: 360 lb
- Drive shaft to PTO belt

**MODEL MD472**
- Overall width with discharge chute: 86”
- Cutting width: 72”
- Cutting height: 1” to 4”
- Spindle drive: Single "V" belt
- Spindles: Tapered roller assemblies
- Blades: 3 blades, 24 3/4”
- Discharge: Side
- Wheels: 10 x 3.5 semi-pneumatic
- Weight: 470 lb
- Drive shaft to PTO belt

REAR-DISCHARGE / MULCHING ROTARY DECK
Go from rear-discharge to mulching deck by simply installing the separate blade and baffle option. Deck flips up more than 90 degrees for easy access to blades and underside. (450, 440, 235)

**MODEL MX460**
- Overall width: 60 3/4”
- Cutting width: 60”
- Cutting height: 1 1/2” to 4”
- Spindle drive: Single "V" belt
- Spindles: Tapered roller assemblies
- Blades: 3 blades, 20 3/4”
- Weight: Rear discharge: 430 lb; Mulching option: 450 lb
- Drive shaft to PTO belt

TREE FARM MOWER
Take down grasses and weeds between rows with ease. The out-front design provides great visibility for two-sided trimming. (450 and 440 without fenders)

**MODEL MC400**
- Overall width: 45 1/2”
- Cutting width: 44”
- Overall length: 79” including wheel shields
- Cutting height: 2” to 5”
- Spindle drive: Gearbox and 2 V-belts
- Spindles: 1” ball bearings
- Blades: 2 blades, 22 1/2”
- Discharge: Rear
- Weight: 272 lb
- Drive shaft to PTO belt

CORE AERATOR
Aerate turf for better health with our easy-to-use core aerator. Independent 3/4-inch tine assemblies provide a 6 1/2-inch by 7-inch coring pattern. To aerate deeper, simply add more weight to the weight box. (450, 440, 235)

**MODEL AR240**
- Overall width: 45 1/2”
- Working width: 40 1/4”
- Overall height: 28 1/2”
- Overall length: 30”
- Main shaft bearings: Greasable 1 1/2”
- Tines: 6 per wheel, 3/4” core tines
- Aerating wheels: 7 steel with bushings/ pressurized lubrication fitting
- Aerating width: 42” actual; 48” effective
- Aerating depth: Up to 3 1/2”
- Aerating pattern: 6 1/2” x 7” (3.6 holes sq/ft)
- Weight: 390 lb with 4 weights
SOIL TILLER
Till soil for planting beds to a depth of up to 6 inches. The 48-inch swath helps get the job done quickly. The durable chain-drive rotor is made with a solid 1 1/2-inch steel shaft and holds 24 cutting tines. (450, 440, 235)

**MODEL TL348**
- Working width: 48"
- Working depth: 6" maximum
- Overall height: 26"
- Overall width: 51"
- Overall length: 38"
- Tines: 24 replaceable, hardened
- Drive: Chain drive from gearbox
- Operation: Tractor in reverse motion
- Bearings: Greaseable
- Weight: 290 lb

TRENCHER
This tough trencher follows the trenching line with minimum effort. An easy-to-see depth indicator gauge makes it easy to adjust the depth of cut. (450, 440)

**MODEL TH300**
- Overall width: 37"
- Overall length: 5' 4"
- Overall height: 34"
- Auger diameter: 12"
- Chain speed: 550 ft/minute
- Drive shaft diameter: 1-1/2"
- Cutting depth: 28"
- Cutting width: 5-1/4" standard; 4-3/4" optional
- Weight: 395 lb

SLIP SCOOP
Use the slip scoop for virtually any job that normally requires a wheelbarrow, easily moving, lifting, and hauling wet or dry materials. Also ideal for excavating small areas. (450, 440, 235)

**MODELS SS244, SS248**
- Overall width: SS244 - 48"; SS248 - 52"
- Overall height: 16"
- Overall length: 33"
- Width of bucket: SS244 - 44"; SS248 - 48"
- Bucket capacity: SS244 - 3 1/4 cu. ft.; SS248 - 3 1/2 cu. ft.
- Dumping: Hydraulic
- Scarifier teeth: 6 - 1" wide (optional)
- Weight: SS244 - 135 lb; SS248 - 170 lb

STUMP CUTTER
The durable 16-inch diameter cutter head is powered by a PTO belt driven off a right-angle gearbox for reliable performance. Hardened cutters grind both side-to-side and from the top down. (450, 440)

**MODEL SC101**
- Overall width: 34 1/2 "
- Overall height: 18"
- Overall length: 32"
- Cutterhead: 24 hardened cutters
- Cutter head diameter: 16"
- Cutter head width: 3 1/4"
- Cutter head speed: 1600 rpm
- Cutting depth below ground level: 5"
- Maximum recommended cutting height above ground level: 5"
- Weight: 250 lb
POWER BLOWER
Clear debris from paved or grassy areas easily with this powerful, eight-blade blower fan, providing a windblast up to 150 MPH. (450, 440, 235)

MODEL PB100
- Overall width: 33”
- Overall height: 18”
- Overall length: 24”
- Skid shoe: Fixed
- Fan: 8-blade, welded
- Fan diameter: 14”
- Fan width: 6”
- Fan speed: 4300 rpm @ 3600 rpm engine speed
- Air flow: 3000 cfm at max rpm
- Weight: 95 lb

TURBINE BLOWER
The powerful axial-flow turbine-design blower runs quietly and produces wind speeds up to 114 MPH. The nozzle rotates hydraulically 360 degrees to blow debris in the safest, most efficient direction. A blower-mounted kickstand comes with the Quick-Hitch™ System to make attaching quick and easy. (450, 440, 235)

MODEL PB200
- Overall width: 27”
- Overall height: 33”
- Overall length: 67”
- Airflow: 8000 cfm
- Wind speed: 114 mph
- Wind speed (deflected to front): 78 mph
- Sound level (while seated in operator seat): 91 dBA
- Weight: 235 lb
- Weight on caster: 195 lb

ROTARY SWEEPERS
Efficiently remove dirt from sidewalks, driveways, and paved areas. Hydraulic controls angle the broom left and right to sweep the dirt where you want it. (450, 440, 235)

MODELS
- RS350
  - Overall width: 61”
  - Overall height: 18”
  - Overall length: 44”
  - Broom width: 54”
  - Broom diameter: 16”
  - Working width: 54”
  - Hydraulic angling (left & right): 30°
  - Speed of broom: 0-300 rpm
  - Gearbox: Beveled gears
  - Weight: 170 lb
  - Broom rotation: Forward and reverse

- RS454
  - Overall width: 62”
  - Overall height: 18”
  - Overall length: 44”
  - Broom width: 54”
  - Broom diameter: 24”
  - Working width: 54”
  - Hydraulic angling (left & right): 30°
  - Speed of broom: 0-265 rpm
  - Gearbox: Beveled gears
  - Weight: 475 lb
  - Broom rotation: Forward and reverse

LAWN SWEEPER
Clean sweep your lawn of cuttings or fallen leaves. Packing action gets much more into the unit before you need to unload. Rear weight bar is recommended. (450, 440)

MODEL LS340
- Overall width: 62”
- Overall height: 52”
- Overall length: 82”
- Width of pickup: 40”
- Brush: 3-paddle staggered
- Depth wheels: Semi-pneumatic
- Hitch: Right, left or center pull
- Carrying capacity: 24 cu ft
- Weight: 530 lb
PUT SNOW IN ITS PLACE WITH
STEINER SNOW REMOVAL ATTACHMENTS

Steiner® tractors have more than enough power to clear the heaviest snow from sidewalks, driveways, and lots. Steiner offers a variety of snow removal attachments that give you the power to blow it, sweep it, push it aside, or carry it away.

PROFESSIONAL SNOW BLOWER

Our new 48” Steiner SB648 professional snow blower is built to last and is our most efficient snow blower attachment yet. It clears the heaviest snow, in the toughest of conditions and faster than previous models. (450, 440)

SNOw BLOWERS

Snow blowers feature heavy-duty 10- and 12-gauge steel side panels and housings with double-layered 3/16-inch base, and a no-maintenance gearbox. Roller bearings and brass bushings support a high-RPM auger and 1100-RPM impeller. (450, 440, 235)

MODELS SB448, SB454

SB448: 48”, two-stage snow blower for 450 and 440 tractors
SB454: 54”, two-stage snow thrower for 450, 440 and 235 tractors
Opening size: 25” | Serrated Auger: 15”
Impeller: 4 blades, 14” with brass bushing on impeller fan shaft
Chute: Solid steel hydraulic chute with 237-degree rotation standard and optional electric chute deflection
Skid shoes: 2” adjustable heavy-duty skid shoes, 14” inch high carbon steel

Side panels: 10-gauge steel
Housing (Auger and Impeller): 12-gauge steel
Base: Double layered 3/16” steel base
Scraper bar: 2” reversible made of 3/16” high carbon steel
Hydraulic Chute Rotation: Hydraulic hose and quick-connect couplers standard
Ship Weight: SB448 - 270 lb, SB454 - 306 lb
ROTARY SWEEPERS
Efficiently remove light snow from sidewalks, driveways, and paved areas. Hydraulic controls angle the broom left and right to sweep the snow where you want it. (450, 440, 235)

MODELS
- **RS350**
  - Overall width: 61"
  - Overall height: 18"
  - Overall length: 44"
  - Broom width: 54"
  - Broom height from cutting edge: 16"

  - Broom width: 54"
  - Broom height from cutting edge: 16"
  - Hydraulic angling: 30° left and right
  - Speed of broom: 0-265 rpm
  - Weight: 475 lb

SLIP SCOOPS
Slip scoops are a year-round, versatile attachment and ideal for any job that requires lifting and hauling of wet or dry materials. (450, 440, 235)

MODELS SS244, SS248
- Overall width: SS244 - 48"; SS248 - 52"
- Overall height: 16"
- Overall length: 33"
- Width of bucket: SS244 - 44"; SS248 - 48"
- Bucket capacity: SS244 - 3 1/4 cu. ft.; SS248 - 3 1/2 cu. ft.
- Dumping: Hydraulic
- Scarifier teeth: 6-1" wide (optional)
- Weight: SS244 - 136 lb; SS248 - 170 lb

POWER ANGLE BLADES
Available in three sturdy widths to push snow away. Angle the blade hydraulically 30 degrees left or right for efficient snow placement. Spring-loaded, forward-tilt safety trip protects blade. (450, 440, 235)

MODELS BD248, BD260, BD272
- Blade width: BD248 - 48"; BD260 - 60"; BD272 - 72"
- Overall height: 9" | Overall length: 32"
- Blade height from cutting edge: 19"
- Hydraulic angling: 30° left and right
- Skid shoe: Adjustable | Forward tilt: Spring-loaded
- Cutting edge: 3/8" x 4" hardened
- Scarifier teeth: 3/8" x 4" through hardened steel
- Scarifier pitch: 2" sawtooth edge
- Weight: BD248, BD260, and BD272: 170 lb/195 lb/213 lb
- Optional caster wheel kit replaces skid shoes
- Optional 3/4" x 4" heavy-duty cutting edge
- Optional 1" x 5" heavy-duty poly cutting edge

ADJUSTABLE V-BLADE
Quickly change from a V-blade to straight blade to scoop configuration on the move with the electro-hydraulic controls, and move snow the quickest, most efficient way for the conditions. (450, 440, 235)

MODEL BD358
- Overall width: 69 1/4"
- Cutting width: straight/angled: 56"; scoop: 49"; V-blade: 53"
- Overall height: 21"
- Overall length: 31"
- Blade height from cutting edge: 21"
- Angling: 30° left and right, front and back
- Skid shoes: Adjustable | Forward tilt: Spring-loaded
- Cutting edge, 2 position: 3/8" x 4" hardened
- Weight: 248 lb
**450 / 440 TRACTOR CAB**
Tempered glass windows shield you from wind, snow, dust, and rain. Windows can be vented or removed for conditions requiring more airflow.

- Weight: 180 lb
- Overall height: 77" installed
- Windows: Tempered safety glass
- Windshield wipers: Electric 12 V
- Mounting: Frame and ROPS roll bar
- Warranty: One (1) year, limited

**450 / 440 DELUXE CAB ACCESSORIES**
- Water heater kit
- Work light (2 lights: front or rear)
- Safety beacon light kit
- Circulating fan
- Two-side exterior mirror kit
- Interior mirror

**ALSO AVAILABLE**

**235 TRACTOR CAB**

Steiner’s all-season, enclosed tractor cabs help protect you from the elements and keep you comfortable in any weather conditions.
CUSTOMIZE YOUR STEINER

CANOPY
Protect yourself from the elements and operate comfortably with a canopy on your Steiner® tractor.

THREE-POINT HITCH
Designed for the 450 and 440, the three-point hitch is ideal for rear attachments requiring a Category 1 hook-up.

FRONT WEIGHT BAR KIT
Provide additional stability when towing or using the three-point hitch. Includes (4) 50-pound weights.

IT’S IMPORTANT TO PICK THE RIGHT TRACTOR TIRES
Tires are like work boots for your tractor, which means you need to choose the right set for the job at hand. Consult with your dealer to learn more about which tires are appropriate for your Steiner tractor.

DUAL WHEELS
All Steiner tire choices are available in optional dual sets for added flotation, stability, and traction.

TURF TIRES
These tires are designed for use in fine turf areas, reducing marking and turf damage.

BAR TIRES
For turf that can handle a more aggressive tread, these general tires offer improved hillside traction.

FIELD TRAC TIRES
Excellent for all-terrain use, these tires are highly aggressive when more traction is needed for working in and around hills, mud, dirt, and snow.
450 TRACTOR SPECIFICATIONS

**DIMENSIONS**
- Overall width: 44.5”, 50.5” with 3” wheel extensions, 66.5” with dual wheels
- Overall length: 77” with ROPS up
- Overall height: 73.5” with ROPS up; 55” with ROPS folded
- Wheelbase: 43.5”
- Minimum ground clearance: 4.75”
- Frame oscillation: 9”
- Turning radius: 43.5”
- Weight: Kubota® D902: 1665 lb, Kubota® WG972: 1660 lb, Vanguard M61 EFI: 1575 lb

**ENGINES**
- Kubota® D902 Diesel, Liquid-Cooled, 898 cc
- Kubota® WG972 Gas, Liquid-Cooled, 962 cc
- Vanguard™ M61 EFI Gas, Air-Cooled, 993 cc

**HYDRAULICS**
- Implement pump: Torrola Group 2 Series fixed displacement, stacked configuration
- Flow capacity (gpm): 6 gpm @ 3600 RPM
- Lift, steering, auxiliary pressure: 1750 PSI
- Hydraulic oil capacity: 5.25 US Gallons

**TRANSMISSION**
- Hydrostatic drive pump: Eaton® Model 70160, Variable displacement piston pump
- Transaxles: (2) Peerless® 2600 dual range
- Speeds: High range: 9.5 MPH forward, 7.0 MPH reverse
- Low range: 6.0 MPH forward, 4.5 MPH reverse
- Steering: Hydraulic power steering
- Parking Brake: Single Mechanical Disk

**ATTACHMENT DRIVE**
- Front PTO clutch: Warner® CMS 250 Series electric clutch / brake
- Hydraulic outlets: Quick couplers-front

**SLOPE RATINGS**
- Continuous: 20° Max
- Intermittent (10 minutes or less): 30° Max

**FUEL SYSTEM**
- 7 US Gallon tank capacity

**TIRES**
- Field Trac 22x12-10
- Bar 22x12-10
- Turf 22x11-10

**HITCH**
- Front: Steiner Quick-Hitch™ System
- Back: Standard 2” receiver hitch, with optional category 1 three-point hitch

**HIGH-BACK BUCKET SEAT**
- Deluxe, high-back bucket seat with armrests and rear storage pouch
- Adjustment: 6” fore and aft

**ADDITIONAL FEATURES**
- Lighting: Dual LED headlights and taillights
- Storage compartment: Standard
- Cup holder: Standard
- Front and rear skid plates: Standard
- PTO tension adjustment: Manual
- 12 Volt outlet: Standard, 15 amp
- Adjustable rear pedal position
- Optional hand lever speed control
- Rollover Protective Structure (ROPS): Standard, folds down
### 440 TRACTOR SPECIFICATIONS

**DIMENSIONS**
- Overall width: 44.5”
- Overall length: 86”
- Overall height: 73.25”
- Wheelbase: 43.5”
- Minimum ground clearance: 4.75”
- Frame oscillation: 6”
- Turning radius: 44”
- Weight: With Kohler® engines: 1499 lb | With Kubota® engines: 1517 lb

**ENGINES**
- 440-34K: Kohler® Command Pro CH904, Air-Cooled, 999 cc
- 440-40K: Kohler® Command Pro CH1000, Air-Cooled, 999 cc
- 440-25KDL: Kubota® K992, Diesel LC, 898 cc
- 440-32KGL: Kubota® WG972, Gas LC, 962 cc

**HYDRAULICS**
- Pump: Eaton Series 26
- Total capacity (gpm): 6 gpm @ 3600 RPM
- Lift pressure: 1500 PSI
- Hydraulic oil capacity: 5 US Gallons

**TRANSMISSION**
- Drive train: Eaton® Model 70160, Variable displacement piston pump
- Transaxles: Peerless® 2600 dual range
- Speeds: 0-10.5 MPH forward, High; 0-5.25 MPH reverse, Low
- Steering: Hydraulic power steering
- Brakes: Dual disc and front and rear axles

**ATTACHMENT DRIVE**
- Front PTO clutch: Electric Warner® Mag Stop 225 ft. lb w/ midpole brake
- Hydraulic outlets: Quick couplers-front

**SLOPE RATINGS**
- Continuous: 20° Max
- Intermittent (10 minutes or less): 30° Max

**FUEL SYSTEM**
- 8 US Gallon tank capacity

**TIRES**
- Field Trac 22x12-10
- Bar 22x12-10
- Turf 22x11-10

**HITCH**
- Front: Steiner Quick-Hitch™ System, with standard front release control or optional release from seated position
- Back: Standard 2” receiver hitch, with optional category 1 three-point hitch

**HIGH-BACK BUCKET SEAT**
- Armrests: Standard
- Suspension: Radial bearing suspension, optional mechanical suspension
- Adjustment: 7” fore and aft

**ADDITIONAL FEATURES**
- Lighting: 200 watt halogen quartz headlights (4-50 each), rear marker running lights
- Storage Compartment: Standard
- Cup holder: Standard
- PTO tension adjustment: Manual
- 12 Volt outlet: Optional
- Adjustable rear plate positions: Optional
- Optional hand lever speed control
- Rollover Protective Structure (ROPS): Standard, folds down

### 235 TRACTOR SPECIFICATIONS

**DIMENSIONS**
- Overall width: 56”
- Overall length: 82”
- Overall height: 45”
- Wheelbase: 50”
- Inside turning radius: 14” (measured at the front wheel)
- Weight: 1420 lb

**ENGINE**
- 235D: Kubota® D1105-E3B 3-cylinder, liquid-cooled diesel
- 68.63” displacement, 3000 RPM, 24.8 gross horsepower

**TIRES**
- Drive: 24x11-2, bar, 6-ply
- Rear: 18x8.50-8, turf, 4-ply

**DRIVE TRAIN**
- Transmission: Sauer Danfoss Series 15 U-Type hydrostatic piston pump motor
- Transaxle: 2-speed Peerless® 2600 Series with differential lock
- Ground speed: 0-10 MPH forward, High; 0-5 MPH reverse, Low
- Brakes: Individual wheel drum turning brakes

**TRACTION BOOST**
- Hydraulic Traction-Max™ adjustable weight transfer system with pressure gauge indicator

**POWER TAKE-OFF**
- Warner® 175 ft lb electric clutch

**CHARGING SYSTEM**
- 40 AMP battery / Ignition: 12 V
- 620 CCA

**SEAT**
- Extra-large deluxe contoured seat

**LIGHTING**
- Dual headlights, dual taillights

**STEERING**
- Hydraulic power steering

**FUEL SYSTEM**
- 6 US Gallon tank capacity

**FUEL PUMP**
- Electric

**ATTACHMENTS**
- No tools needed, Quick-Hitch™ System

**ROLOVER PROTECTIVE STRUCTURE (ROPS)**
- Standard
